

## **Project Engineer**

Unger Construction Company is looking for Commercial Project Engineers who are motivated and team orientated, to help support a project team on a wide variety of commercial projects throughout Northern California. We are looking for 4 year graduates of a Construction Management or Engineering program, that possess strong communication and problem solving skills, who are pursuing a long lasting career in construction.

Unger Construction needs individuals who enjoy working on a team in the fast paced environment of construction. The company offers a family atmosphere, structured work environment, and endless opportunity for growth within the company.

As a Project Engineer you can expect to work closely with your project team's project administrator, project manager, and superintendent on many of the following responsibilities:

- Process and Track RFI's, Submittals, and Change Orders
- Assist with pre-construction activities
- Assist with Project Manager duties
- Assist with procurement, including quantity takeoffs and pricing, subcontracts, potential changes in scope of work

### **Requirements:**

- Bachelor's degree in Construction Management, Engineering, Architecture, Business Administration or equivalent technical training and related experience
- LEED Accredited is desirable
- Knowledge of construction methods and materials, costing, scheduling and estimating
- Ability to read and interpret plans
- Proficiency using Microsoft Office software such as Word, Excel, Outlook and Project
- Experience using Viewpoint, Revit, CAD, Navisworks and BIM is desirable

### **Qualifications:**

- Basic understanding of cost analysis
- Excellent communication and interpersonal skills
- Strong customer orientation
- Able to organize and manage multiple priorities
- Strong team player
- Leadership capabilities

### **Licenses:**

- Must have a valid CA driver's license and a good driving record.
